

## About ECOH Management

ECOH provides hazardous materials management, occupational hygiene and environmental services. Our team is made up of highly skilled, compassionate problem solvers with an unwavering dedication to truly understanding the needs of our clients. We take pride in our proven ability to put our clients at ease by simplifying highly complex problems with innovative solutions.

ECOH is not just a great place to work but also a place where you become part of a culture that fosters an environment of both team and individual growth and achievement, embracing entrepreneurial spirit, client focus, accountability, respect, passion, commitment, and appreciation. ECOH's unique culture has been essential to staff retention and the growth of the company. ECOH's Leadership team manages our business through guiding values of integrity, commitment, creativity and success.

ECOH Management is currently looking for an **Occupational Hygienist** to join our team. You will be a member of our OHS group. As an **Occupational Hygienist**, you will be providing occupational hygiene support to a variety of client types. You will be initially working under the supervision of project managers and senior team members, with the opportunity to rapidly assume increasing autonomy and responsibility.

### **Here is what you will get to do:**

- Prepare and calibrate sampling equipment for field use
- Conduct site assessments for asbestos, mould, lead, etc.
- Sample collection in the field, data interpretation and preparation of reports
- Interpret and/or analyze sample/data results in relation to legislative requirements and industry accepted guidelines and criteria
- Supervise asbestos and mould abatement activities
- Identify site issues or project concerns and recommend corrective actions
- Conduct indoor air quality and occupational hygiene assessments (i.e. chemical exposures, metals, noise, ergonomics, etc.)
- Be involved in basic client liaison to ensure health, safety and occupational hygiene needs are addressed and met
- Participate in the Health and Safety programs
- Participate in the Quality Control program
- Flexibility in meeting client schedules - evening, night and weekend work may be required
- Office and field related work and periodic overtime work will be required
- Travel within the country will be required

### **Here are the skills you will possess:**

- Enrollment in occupational hygiene, safety, chemical or environmental programs
- Knowledge of occupational hygiene and asbestos-related issues and experience with conducting water damage, mould and IAQ assessments considered an asset
- Strong interpersonal, verbal and written communication and critical thinking skills

- Possess a valid Driver's License and reliable vehicle, with appropriate registration and insurance
- Requirement to wear personal protective equipment - i.e. respiratory protection, hard hat, high-visibility vests, fire retardant coveralls, safety boots and safety glasses
- A desire to broaden range of professional skills
- Able to adapt quickly, while managing a busy workload
- Have proven problem-solving skills
- Office Software applications (Word, Excel, Outlook)
- Enthusiastic and versatile, willing to take on responsibility
- Strong people skills and an ability to work in a team environment

Employment Type: Full Time, Permanent

This position offers benefits including health and dental coverage, vacation time, LTD, life insurance and the opportunity to participate in ECOH's RRSP program.

ECOH treats all employees and candidates with dignity and respect regardless of their gender, age, nationality, ethnic origin, disability, religious belief, etc. We embrace the diversity of our people, and value their individuality. ECOH employees are genuinely appreciated for what makes each of them unique, and we embrace our culture.

Qualified candidates can send their resume to [resumes@ecoh.ca](mailto:resumes@ecoh.ca)

Thank you for your interest in joining ECOH. Only those considered applicants will be contacted.
